Cellulose Bag

**100%
CELLULOSE**

GirBagger's first
plastic-free
packaging

ecogiró

*GirBagger's
first plastic-free
packaging*

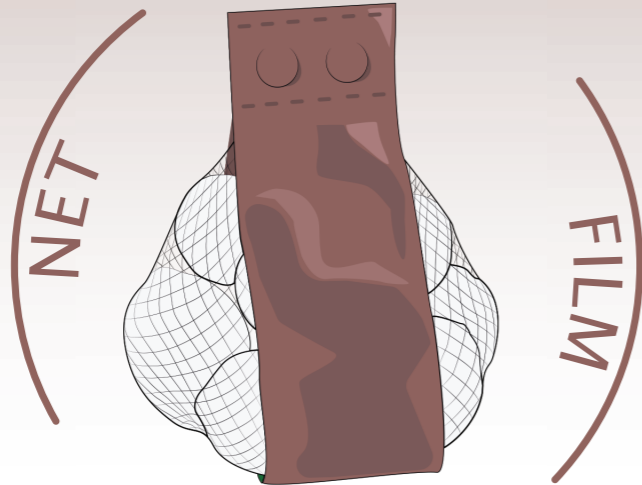

Committed to the environment

MATERIAL

Net made of 100% cellulose yarns, with the possibility of multiple colors.

Film made of 100% paper with stripes of heat sensitive adhesive (on the inner side) that allows closing the bag (patent pending).

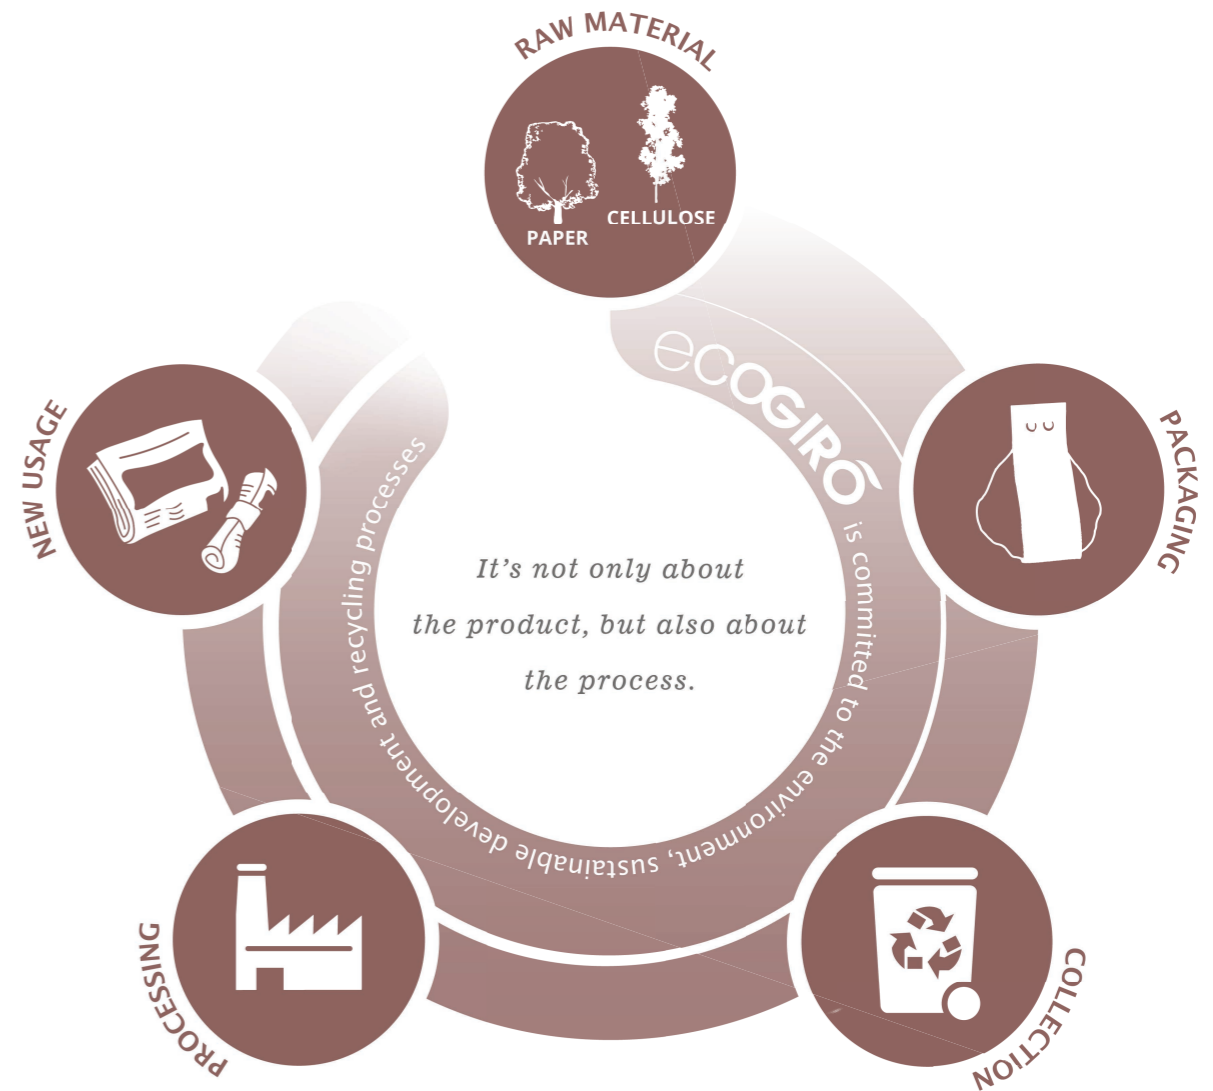

Both the net and the film are cellulosic origin materials with the FSC certification (AEN-COC-000401)

PACKAGING FEATURES

- Girsac & Ultrabag up to 2 kg.
- Made with any existing GirBagger-S adding an extra kit.
- Up to 30 bags/min (1kg).
- High breathability and visibility of the fruit and vegetables thanks to the net.

Cellulose Flow Chart

Cellulose bag is a new packaging system, recyclable in the paper and cardboard container

*It is not only where it
comes from, but also
where it goes.*
